PROJECTS

Full-Stack Self Study Library Management

URL: <https://achievers-library.vercel.app>

- Developed a full-stack library management system using **React 18**, **Node.js**, **Express.js**, **MongoDB Atlas**, and **Mongoose ORM**.
- Implemented secure user authentication with **JWT**, Role-Based Access Control (RBAC), and protected routes for students and admin dashboard.
- Built RESTful APIs for book catalog, issue/return functionality, real-time availability tracking, and advanced search with **React Context** for state management.
- Enhanced UI/UX with **Tailwind CSS**, **Vite**, **Framer Motion** animations, and integrated **Axios** for API calls with **Bcrypt.js** for password security.

Personal Developer Portfolio

URL: <https://sher-portfolio-kappa.vercel.app>

- Designed and built a responsive developer portfolio featuring dynamic dark/light theme persistence and smooth scroll animations.
- Integrated Web3Forms API for contact form submissions and deployed Vercel Analytics for visitor tracking.
- Optimized performance using code-splitting, lazy loading, and achieved excellent Lighthouse scores.

WedCoholic Couture

URL: <https://wedoholic.vercel.app>

- Built a luxury wedding wear e-commerce app with checkout, live order tracking, and video consultations.
- Implemented dual-step admin security, password resets, and transactional OTP emails via Gmail SMTP and Resend API.
- Optimized load times using optimized motion preloaders and deployed the rate-limited stack on Vercel and Render.
